

TECH10

2012 Tech10 Awards

The Tech10 Awards recognize Rhode Island's most accomplished IT practitioners, digital media professionals, and entrepreneurs. These are the do-ers, the go-to guys and gals. They are the geeks, the brainiacs, the ones who make the rest of us look like dolts and superstars all at the same time. They are the innovators and designers bringing to reality a world even beyond our dreams. And sometimes, they are so busy, they don't have time to stand in the spotlight. Not this time.

The Tech10 Awards is the opportunity for Rhode Island's business and technology community to nominate its exceptional technology practitioners: employees, colleagues, clients, and partners; engineers, developers, designers, support specialists, and architects. And entrepreneurs – across all technology related services and products. All are serving innovation, passion and success. Tell us how.

Last year – Tech10's inaugural year – we recognized our first ten of technology's best and brightest at the RISD Museum of Art with 150 members of the Rhode Island community and leadership. This year comes with much anticipation, and we are sure to deliver. Tech10's 2012 honorees will be recognized at an awards celebration in May 2012. Three Tech10 recipients will additionally be honored with special recognitions announced at the awards celebration.

Technology is not about hardware, apps, or those tricky green lights. Technology is about connecting people, empowering business, and creating change in a global world. Don't miss this opportunity to recognize the Tech10 that make technology – through practice and entrepreneurship – truly happen.
